

- Reduce Downtime
- Increase Safety
- Easy Installation

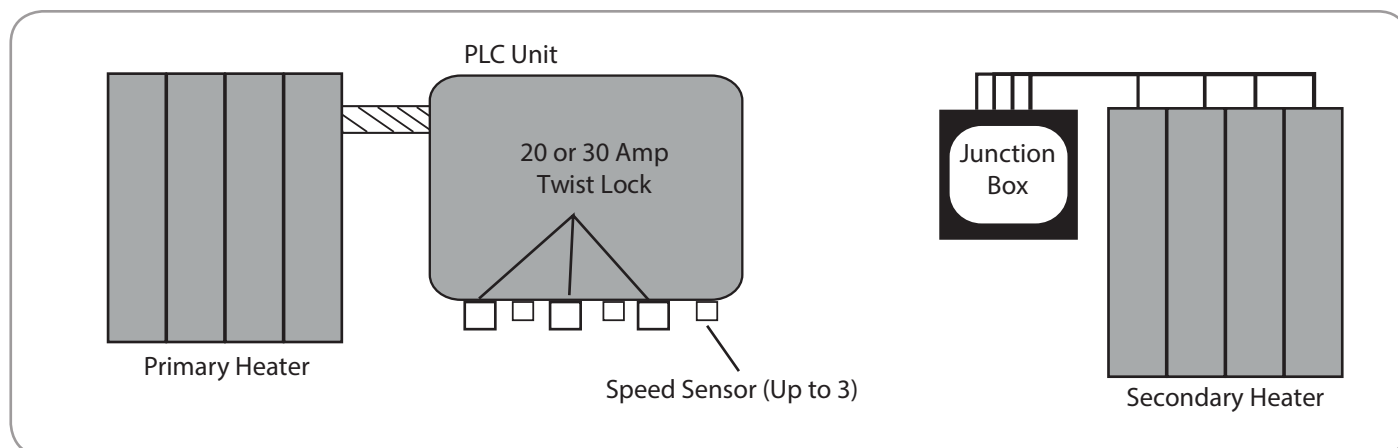

Benefits of using Radial Belt Heaters

- No material build up on belt
- Hooks into existing 480/600 V 3 phase power
- Zero speed safety switch
- Programmable Logic Controller (PLC) Control multiple conveyors simultaneously
- No structural change to conveyor for mounting
- Mounts between belts for added safety & protection

Features:

- Radiant heat instead of an open flame.
- Ambient temperature control
- Concentrated heat placement
- No moving parts
- Low power consumption
- Extended conveyor belt and component life.
- No additional fuel costs

36" - 42" Conveyor Belt Complete Units

- 4550317 Heater & PLC Unit
- 4550318 Secondary Heater

36" - 42" Conveyor Belt Replacement Parts

- 4550319 Heating Element
- 4550320 Zero Speed Sensor

Electric Cable Not Included All Heater units must be tied into a PLC box, maximum 3 heater units per PLC
