

OEM SANDVIK PARTS

OEM SANDVIK PARTS

When only genuine parts will do, rely on ELRUS' selection of OEM Sandvik components. As an authorized distributor, we offer authentic Sandvik parts that guarantee the exact specifications needed for optimal performance and durability. By choosing OEM parts, you safeguard your equipment's integrity, extend its life, and maintain Sandvik's high standard of reliability.

JAW PARTS:

Ensure the peak performance of your Sandvik jaw crusher with genuine OEM jaw parts from ELRUS. Specifically engineered to fit Sandvik equipment, our jaw parts provide reliable functionality and maximum durability, allowing your operation to maintain optimal production levels while minimizing downtime. Trust in ELRUS to deliver quality parts that keep your equipment running smoothly.

OTHER PARTS:

From wear plates to hydraulic components, ELRUS provides a wide selection of other Sandvik OEM parts to support your entire crusher system. Each part is crafted to meet Sandvik's rigorous standards, ensuring compatibility and performance across your equipment. Rely on ELRUS for all your Sandvik parts needs, keeping your machinery in peak condition and extending its lifespan.

CONE PARTS:

Keep your Sandvik cone crusher operating at its best with high-quality OEM cone parts from ELRUS. Designed to meet the exact specifications of Sandvik equipment, our cone parts offer exceptional durability and precision. These parts help maintain efficient crushing operations, ensuring consistent output and reducing the need for frequent maintenance.
